Joint Institute for Food Safety and Applied Nutrition

Student Assistant – Web/Server Programmer

The Joint Institute for Food Safety and Applied Nutrition (JIFSAN) is a jointly administered, multidisciplinary research and education program between the University of Maryland and the Food and Drug Administration. The Institute operates several websites including FoodRisk.org, the online resource for Food Safety Risk Analysis.

Hourly positions available immediately.
Flexible Hours
   • Full time - summer semester
   • Part-time - academic year

This position will help in developing and maintaining web applications for JIFSAN websites.

Position requires knowledge of:

- Server-side programming language; such as ColdFusion, PHP or equivalent
- Client-side languages (HTML, CSS, JavaScript)
- Database – SQL
  - Database design including relationships

Applications may be submitted to Kyle McKillop at kmckillo@umd.edu.
