Technical Committee on Food and Chemical Safety

Mission Statement:

*The Committee promotes a science-based determination of the chemical safety of foods to support the advancement of public health.*
ILSI North America’s Tripartite Collaboration

- Provides a forum for **government, academic, and industry scientists** to identify, discuss, and resolve scientific issues of common concern
- **ILSI does not lobby** to influence legislative or regulatory outcomes. The better the science, the better the decision.
- 37 food company members, including **seven new members** in 2015
- **Government scientists** from: USDA, FDA, CDC, NIH, US Army, NASA serve as liaisons to each of our scientific committees
- Over 20, actively engaged **academic scientists** provide counsel to committees and our board
There are 17 branches worldwide

ILSI North Africa will reopen in 2015
