States revolt over food additives

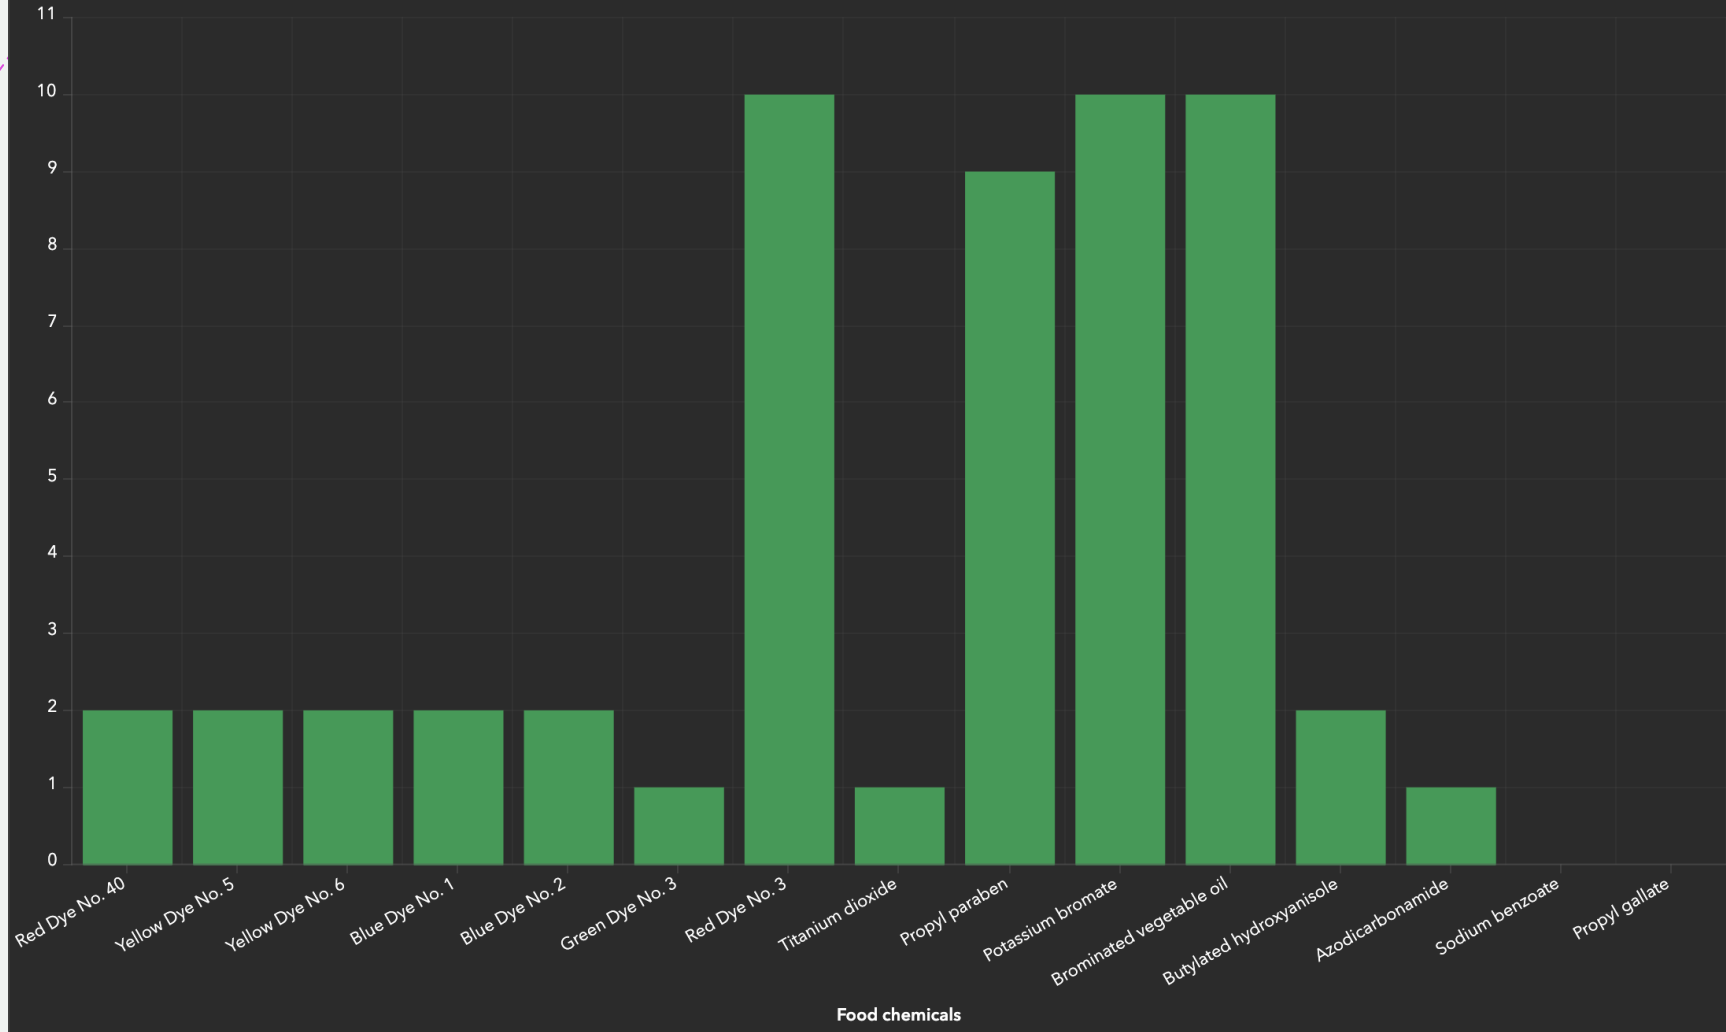

Why a new bill in Illinois to ban five controversial food-additives is a national story – and a classic tale of the feds vs. the states.

FDA looks to check up on food chemicals, but where's the money?

State bans and consumer uproar have put pressure on FDA to review the safety of numerous chemicals already in the food supply. The agency now has a plan to step up oversight, but warns it lacks the resources to carry it out.

FDA commissioner says ultra-processed foods drive 'addictive behavior'

Robert Califf speaks more bluntly about ultra-processed foods and warns about avian flu. Gov. Gavin Newsom signs an artificial dyes ban for foods in schools.

Trump says he'll let RFK Jr. 'go wild' with health agenda

Former President Donald Trump continues to bet on his new alliance with Robert F. Kennedy Jr. and their 'MAHA' messaging. Also, what's up with all these listeria recalls?
